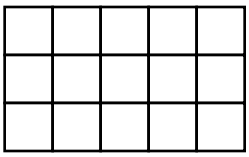
Name: _____

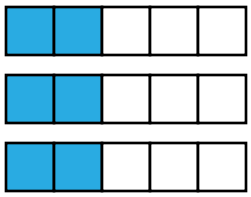
Distributive Property of Multiplication

The Distributive **Property of Mulitplication** says that a multiplication array can be divided into two smaller arrays. When you add the products of the arrays, they equal the product of the larger array.

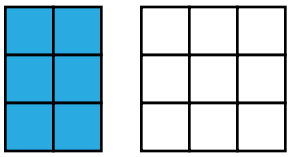
example:



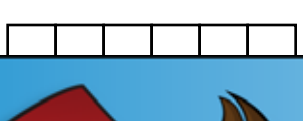
3 x 5



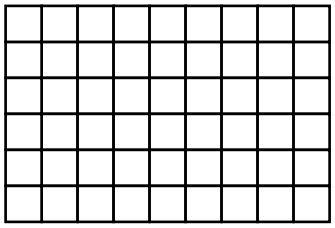
3 x (2 + 3)

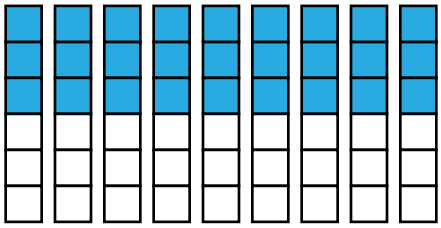


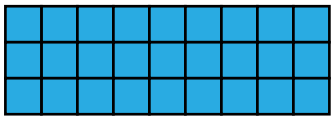
(3 x 2) + (3 x 3)

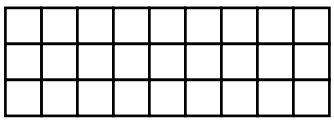


_____ _____ _____







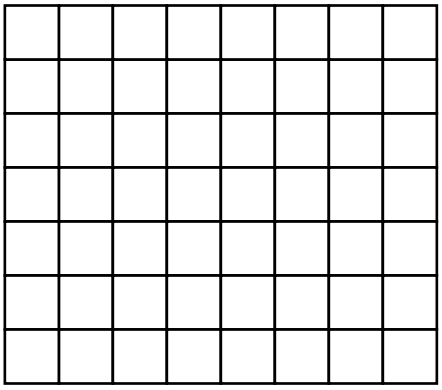


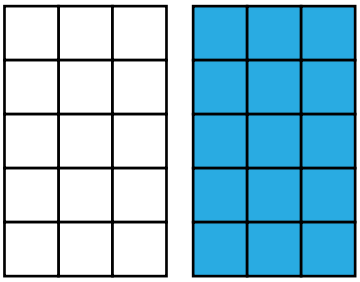
_____ _____ _____

Name: _____

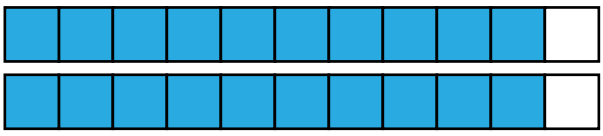
Distributive Property of Multiplication

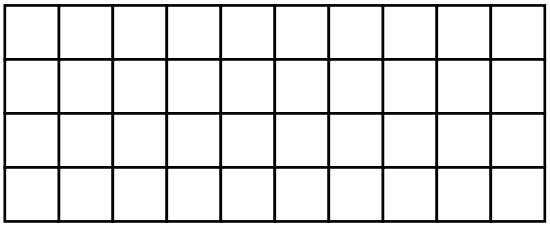
Write the expression shown by each illustration. Then, find the product.





_____ _____





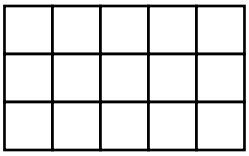
_____ _____

ANSWER KEY

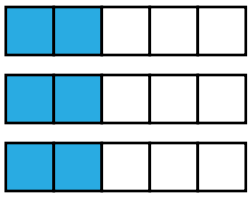
Distributive Property of Multiplication

The Distributive **Property of Mulitplication** says that a multiplication array can be divided into two smaller arrays. When you add the products of the arrays, they equal the product of the larger array.

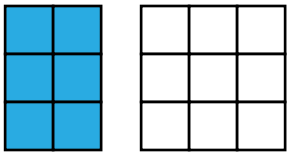
example:



3 x 5



3 x (2 + 3)



(3 x 2) + (3 x 3)
